

Paw Bytes

Paw Bytes is a popular restaurant, home to many software engineers! Customers from all over come to enjoy our delicious entries as well as the company of our wonderful Paw Pals and Paw Associates.

Customers are welcome to purchase any item off our menu and stay in the restaurant for a flat rate of \$1.00!

Customers can also tweet at any of our Pawpals by tweeting at our restaurant's twitter profile with the hashtag of PawPals!

Each Paw Pal is a cat or dog that is taken care of by a Paw Employee. A Paw Pal must attend at least 5 training sessions before being able to roam freely throughout the restaurant. A Paw Pal is also groomed periodically by their assigned Paw Employee. Customers can also tweet a treat to the Paw Pal that they befriended to share their experiences with other customers by using the tag name associated with that given Paw Pal.
